Summary

According to the regulation from January 21, 2022 No 8 the temporary technical regulation related to the COVID-19 spread is prolonged for 2022 year.

Additionally, there is one important update. Now annual inspection of serial production is allowed in both options — as a factory inspection and as well as a sample test.

Factory inspection procedure can be provided distantly with video-conference recording and document analyze.

Note

Factory inspection shall be provided by EAC accredited CB only, no CIG023 recognizing.
